+ 8,000 cameras and other external devices integrated to Mirasys VMS.

MIRASYS

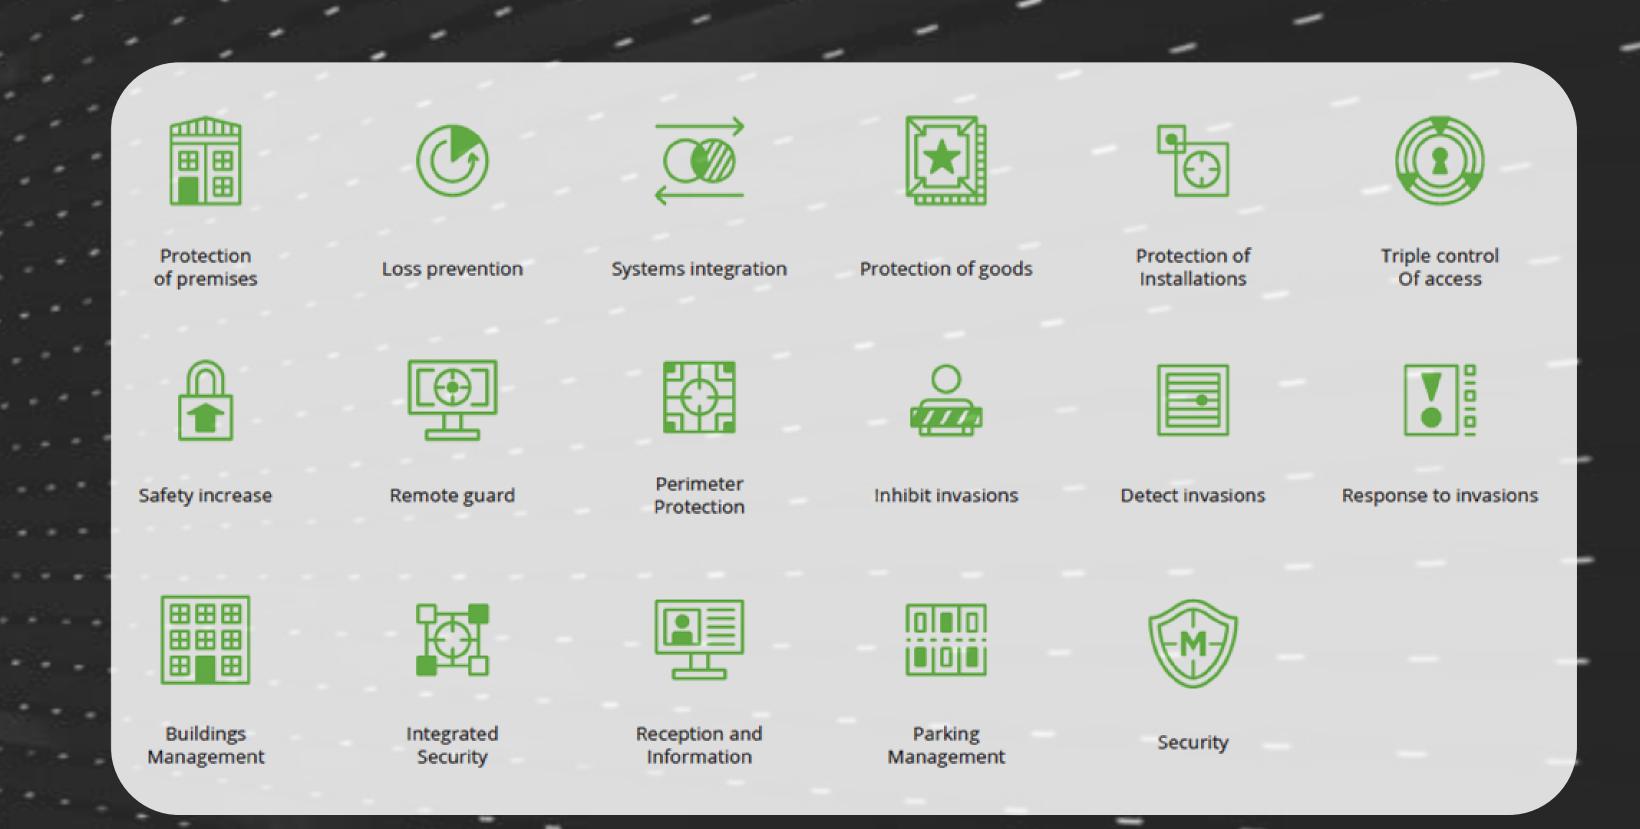

VMS

HIGHLIGHTS

MIRASYS VMS HIGHLIGHTS

- Quick and easy installation and setup
- Highly modular with powerful features
- Efficient and smooth connectivity
- Boundless with extreme scalability and performance
- Proprietary secure data recording technology
- Hybrid (analog & IP), over 8.000 camera models

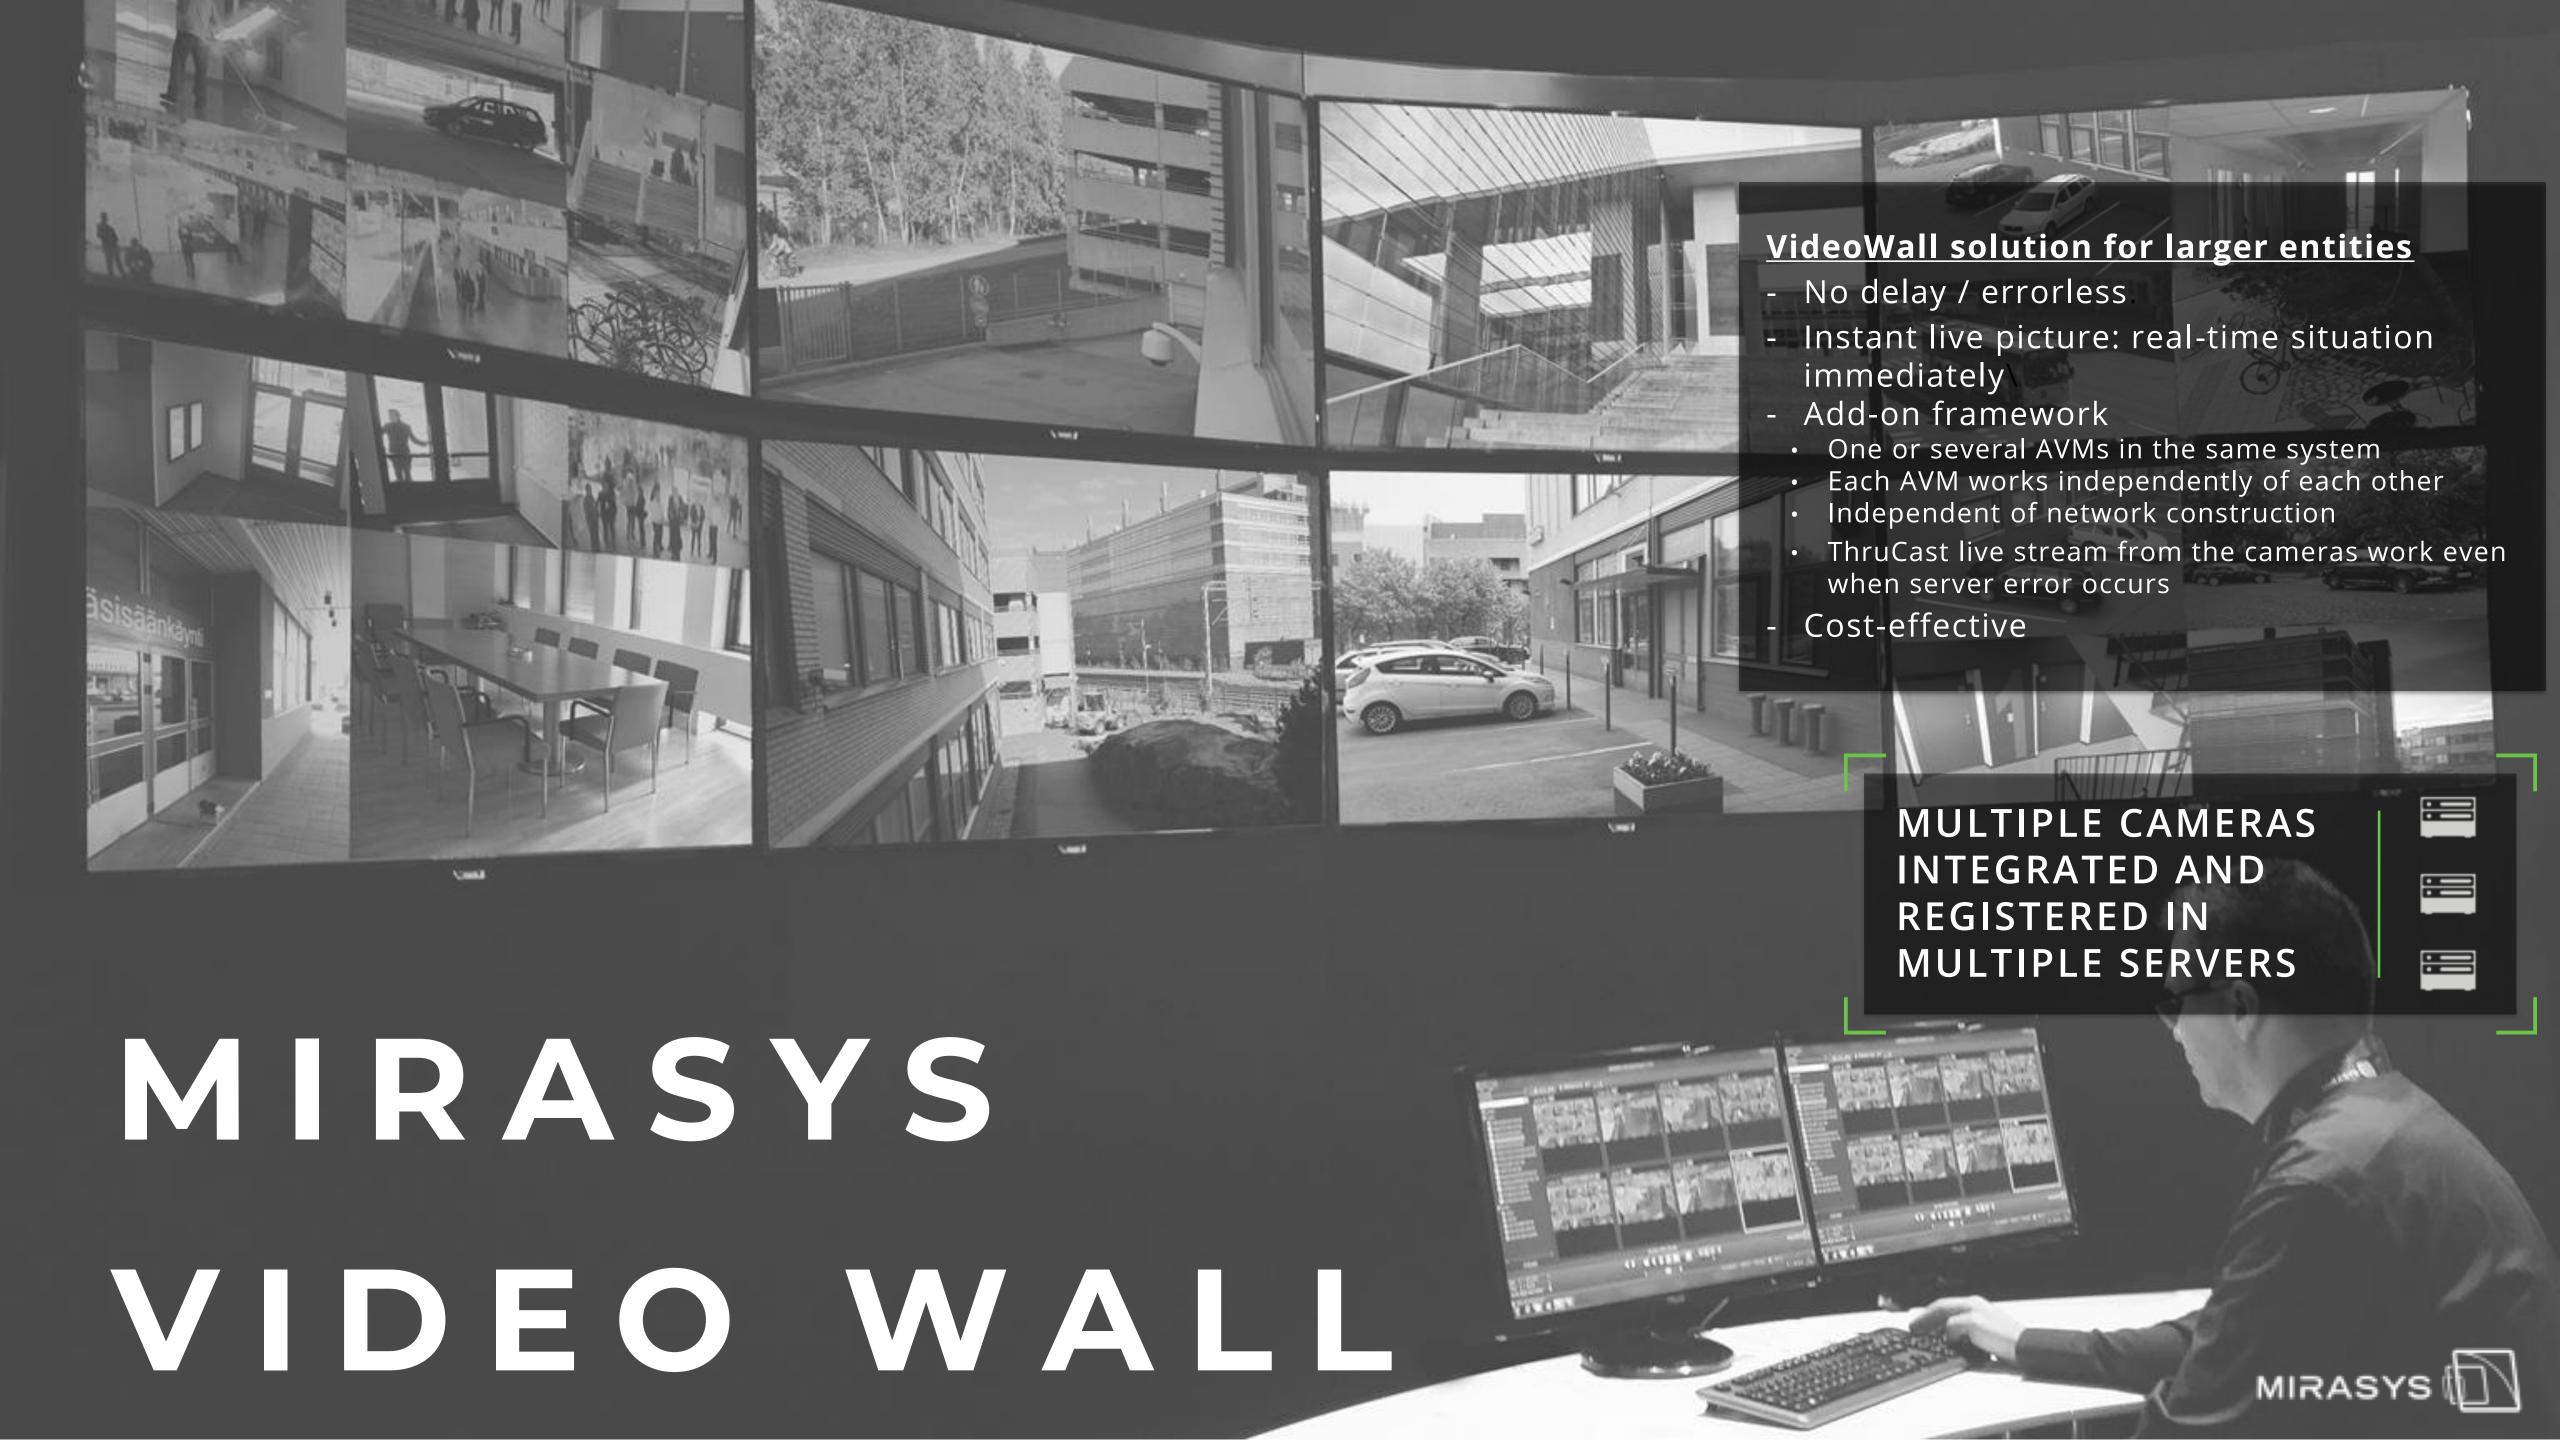

SOFTWARE

FEATURES

- Greater interface
- Powerful analytics
 - Motion detection
 - Auto zoom / auto track
 - Object recognition
- Counting
- Speed / direction
- Dwelling
- Heat map
- Maps
- Alarms
- Reports
- Forensic analysis
- Watchdog

Mirasys Workstation Servers

Base Servers

The Mirasys Base Qube and Base
10 server range has been designed
to provide standalone server
solution for small sized installation,
with max. 300Mbps throughput and
up to 16TB of on-board storage
(JBOO).

MSS

Mirasys Storage Servers
Professional Servers

The Mirasys Pro Qube and Pro NVR 1US/2UG server range has been designed to provide standalone server solution for medium sized installation, with max. 500Mbps for the Pro Qube and 600Mbps for the Pro NVR 1US/2UG throughput and up to 40TB of on-board storage (JBOD for Pro Qube and RAID 5 for Pro NVR 1US/2UG server).

Mirasys Storage Servers Enterprise Servers

The Mirasys NVR Enterprise server range has been designed to provide standalone server solution for large sized installation, with max.

750Mbps for the NVR Enterprise Medium, 1500Mbps for the NVR Enterprise High and 2000Mbps for the NVR Enterprise High and 2000Mbps for the NVR Enterprise Ultra throughput and up to 176TB of onboard storage (RAID 5 + hotspare / RAID 50 + hotspare)

MMS

Mirasys Management Servers

The Mirasys NVR Medium and High Management server has been optimised for critical databasing applications. They are designed for medium to large sized solutions with separate storage servers.

MRW

Mirasys Remote Workstation

The Mirasys Qube and High-Performance Remote Workstations have designed for 27/7 operation for multi-monitor viewing stations.
